and Individuals with Safer, Cost-Effective,
Private and Interoperable Identity
Solutions for the New World

Choosing Venom Hackathon Idea to Implement for SSI

- Many immigrants in Dubai
- Dubai real estate market is not transparent
- Finding housing due to the competitive and opaque real estate market

The Problem: Challenges in the Dubai Real Estate Market

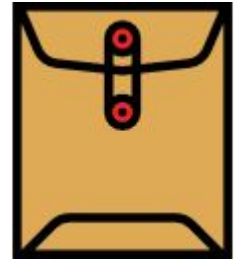

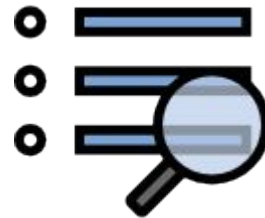

Hi, I'm Alice. I want to buy an apartment in Dubai

Hi, I'm Bob. I want to sell an apartment in Dubai

Current solutions

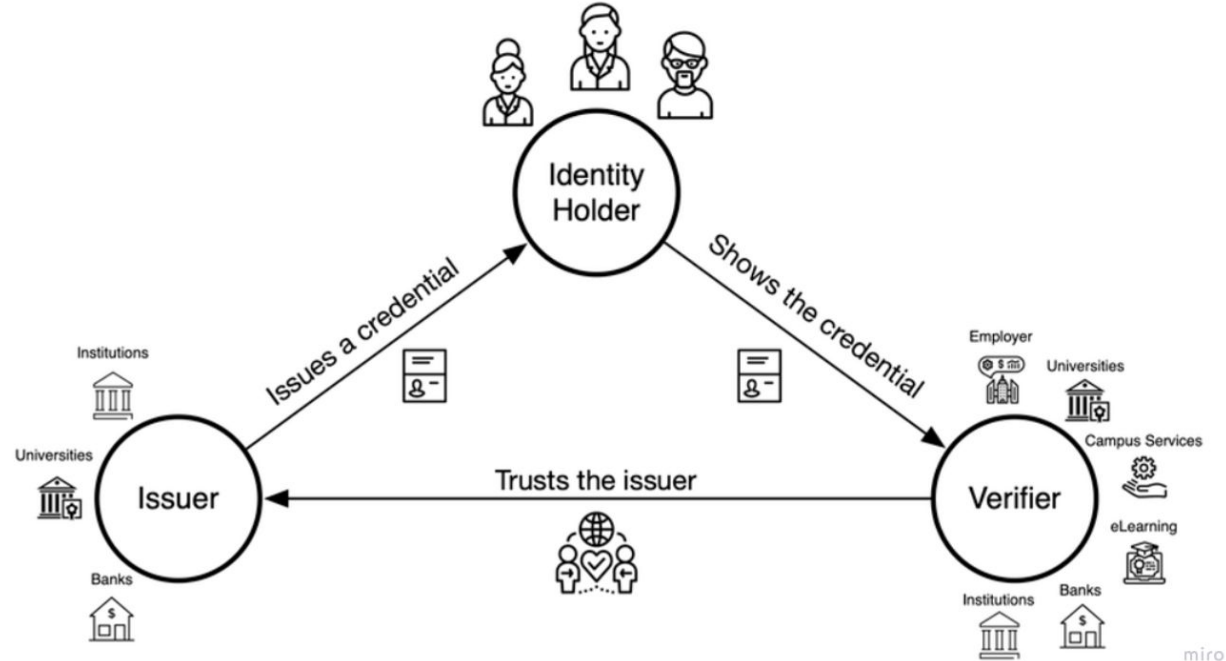

- Uncomfortable
- Time-consuming
- Challenging
- Unknown validity

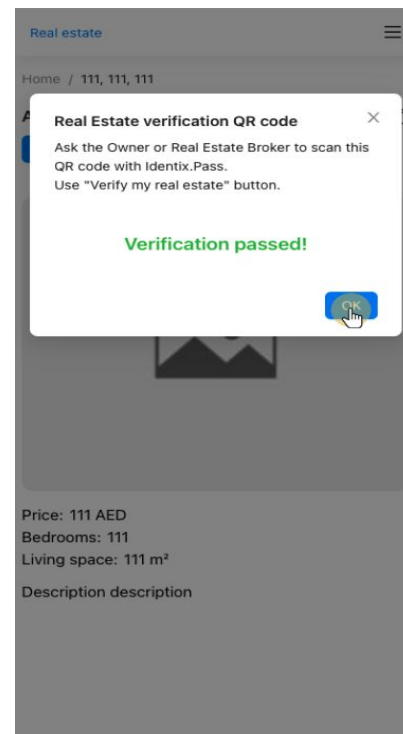

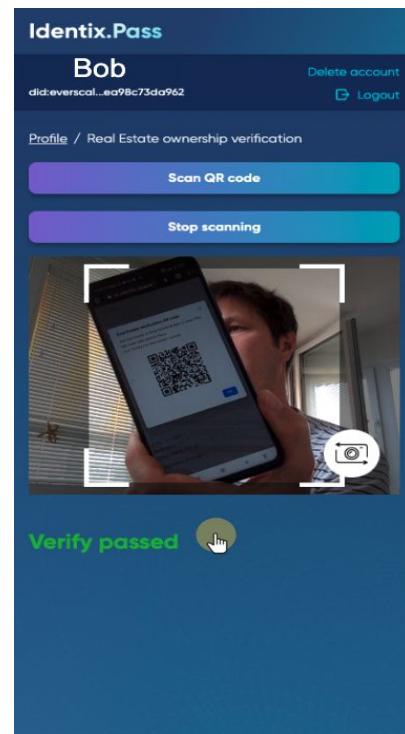

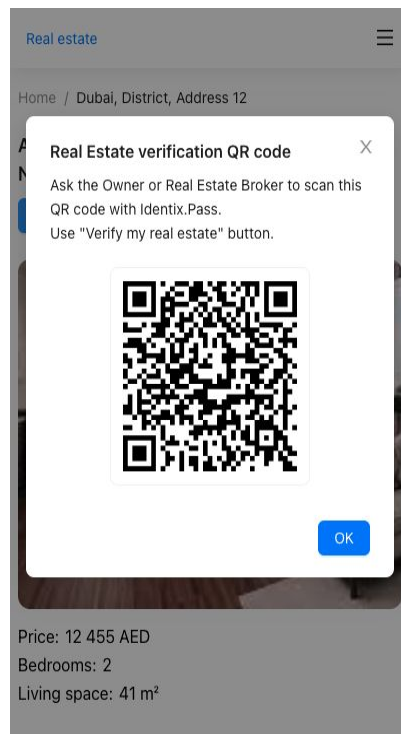

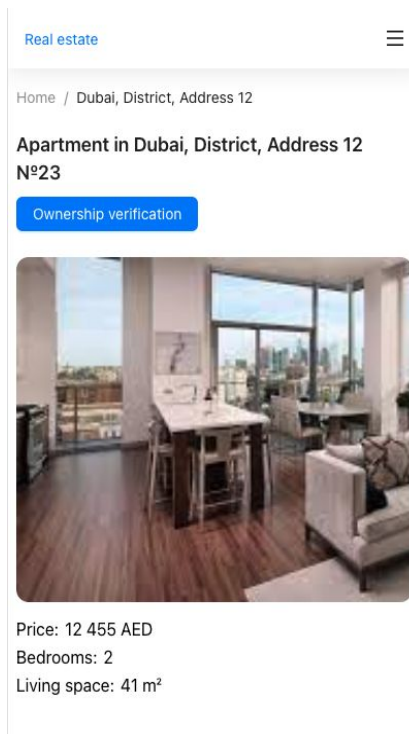

Introducing TrustEstate: A Blockchain-Based Solution

SSI (Self-Sovereign Identity) is a digital identity model that enables individuals to own, control, and share their personal information without relying on a centralized authority.

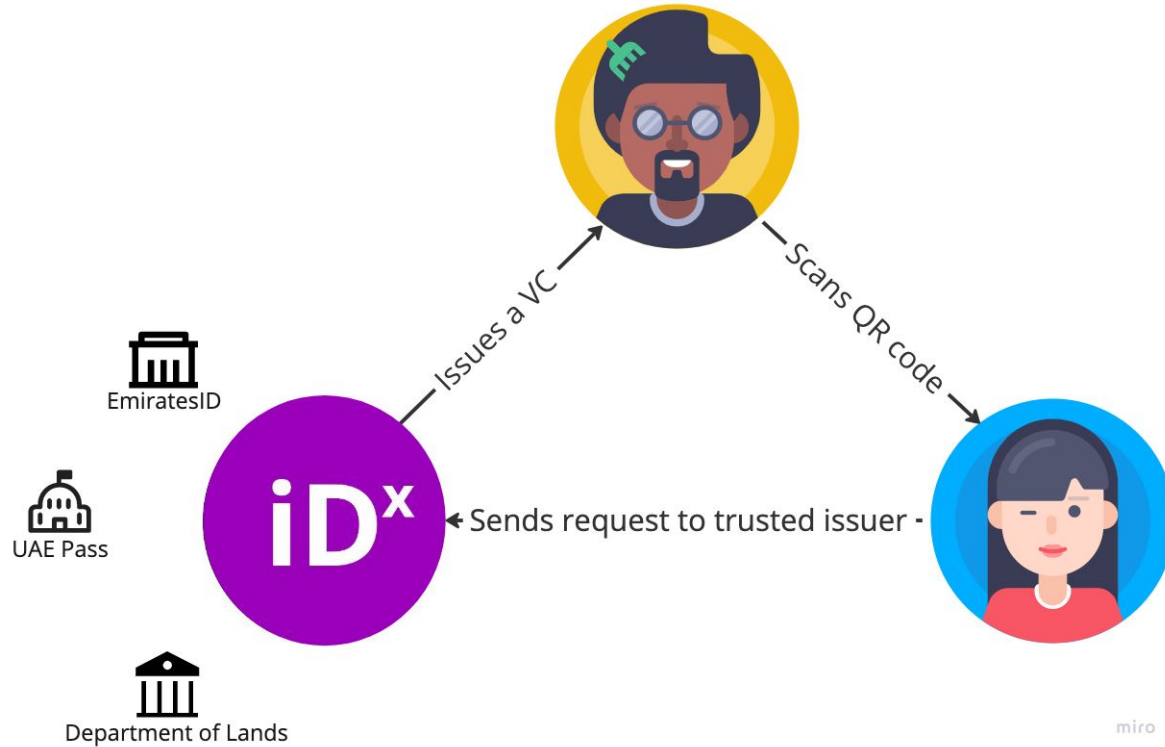

VC (Verifiable Credentials) are digital documents containing claims about an individual's attributes, which can be verified by a trusted third party.
